R & D

Qingdao Pafic Hardware Co., Ltd.

PAFIC PLAY has been manufacturing children's outdoor play equipment since 1997, bringing nearly three decades of industry experience to every project.

Our 50,000 m² factory in Qingdao manufactures wooden playsets, swing sets, slides and accessories for leading brands worldwide.

With 50+ patents and an in-house R&D team specializing in mold development and 3D design, we turn your ideas into market-ready products through flexible OEM, ODM and OBM services.

Our integrated wood, metal and plastic processing capabilities are supported by advanced technologies, including robotic welding, laser cutting and powder coating.

Quality & Compliance: ISO 9001 certified, FSC certificates, with BSCI, SMETA and Walmart audits. Our products are designed and tested to meet applicable standards, including ASTM F963, ASTM F1148, EN 71 and AS/NZS 8124, depending on product type and target market.

Customer Distribution

37 Markets Worldwide

Our playsets are on shelves and in listings across North and Central America, South America, Europe, the Middle East, Africa and Asia-Oceania.

BUNNINGS warehouse · MITRE 10 · Sam's Club · Walmart · amazon · wayfair

How We Develop A Product

Six Steps From First Sketch To Market Launch

01 Concept Building & Rendering

Every new playset starts as a 3D model. We look at it, walk around it and correct it on screen first.

OUTPUT 3D model & photorealistic render

02 Market Analysis

We check age range, size, colour and price point against what the market is actually asking for.

OUTPUT Category & price-point review

03 Prototyping

The approved concept becomes a real sample. Timber, hardware and joints are built and printed in-house.

OUTPUT Physical prototype

04 Design Refining

We measure and load-test the sample. Anything that flexes or is awkward to assemble goes back to the drawing.

OUTPUT Revised drawings & tolerances

05 Marketing Material Preparing

Once it clears testing we shoot it in real gardens and prepare the drawings and listing assets.

OUTPUT Scene photography & assembly sheets

06 Market Launching

The product goes live with a documentation pack matched to each market it enters.

OUTPUT Catalogue & retail listings

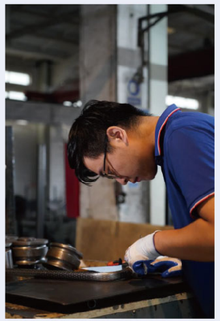

R&D Team

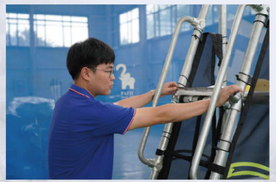

Our R&D team creates innovative playsets for global markets across the Americas, Europe, Middle East, Africa and Asia-Oceania.

ADVANCED MANUFACTURING TECHNOLOGY

Precision Engineering & Craftsmanship

Robot Welding

Robot welding is an automated process using robotic arms to execute precise and efficient welding tasks.

PVC Dip Coating

PVC dip coating is a process that applies a protective and decorative PVC layer onto various substrates.

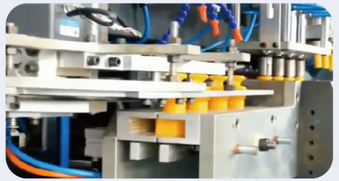

Laser Cutting

Laser Cutting uses high - energy laser beams to precisely cut through various materials with great accuracy.

Lumber Production

Sustainable lumber sourcing, precision cutting,and eco-friendly treatments for durable, safe playground structures.

Blow Moulding

A method for making hollow plastic items by inflating softened plastic.

Static Powder Coating

Our advanced static powder coating line ensures a uniform and durable finish for various metal products.

FSC
Responsibly sourced timber

Premium Solid Chinese Fir — Built for the Outdoors

100% solid Chinese fir, never particleboard. Naturally rot- and insect-resistant, it withstands sun, wind and rain while keeping a warm, natural finish.

Galvanized + Powder -Coated Metal Hardware

All metal fittings are hot-dip galvanized then powder-coated — long-term rust and UV resistance, weatherproof, and free of harmful solvents.

UV-Stable, Weather-Resistant Components

Slides, swing seats and accessory parts use UV-resistant plastics and Strong & durable Oxford fabrics, engineered to resist fading, cracking and water damage.

Multi-Color Options

Choose from a wide palette of color combinations, or fully customize colors, sizes and configurations to match your brand and market.

Certified to Global Standards

Designed and tested to meet EN 71, CPSIA, ASTM F1148 and AS/NZS 8124 — compliance built into the design from the start for confident importing.

Safe and Strong by Design

Reinforced connections and a sturdy frame deliver lasting strength, while rounded anti-pinch edges and rigorously static-load-tested rope nets keep every adventure safe.
